REPORT

RELATING TO THE REGISTRATION OF

Births, Marriages and Deaths

IN THE

PROVINCE OF ONTARIO

FOR THE

Year Ending 31st December,

1917

(Being the 48th Annual Report)

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO :

Printed and Published by A. T. WILGRESS, Printer to the King's Most Excellent Majesty

1918

Printed by
WILLIAM BRIGGS,
Corner Queen & John Sts.,
Toronto.

To His Honour the Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I herewith beg to present for your consideration the Forty-Eighth Annual Report of the Registrar-General, relating to the Registration of Births, Marriages and Deaths in the Province of Ontario, during the year 1917.

Respectfully submitted,

WM. DAVID McPHERSON,

Registrar-General of Ontario.

SIR:—

I have the honour to submit for your approval the Forty-Eighth Annual Report made in conformity with and under the provisions of the Act respecting the Registration of Births, Marriages and Deaths in the Province of Ontario, for the year ending December 31st, 1917.

I have the honour to be, Sir,

Your obedient servant,

A handwritten signature in dark ink, appearing to read "John W. McPherson". The signature is written in a cursive style with a prominent flourish at the end.

Deputy Registrar-General.

TO HON. WM. DAVID MCPHERSON,

Registrar-General of Ontario.

REPORT UPON

Births, Marriages and Deaths

FOR THE YEAR 1917

The Forty-eighth Annual Report of Vital Statistics for the Province of Ontario is herewith presented.

POPULATION.

The estimated population of Ontario for the year 1917 is 2,769,850, divided as follows:—Cities, 1,029,525 or 37.3 per cent.; towns, 168,675 or 6.0 per cent., and rural municipalities, 1,571,650 or 56.7 per cent. This is an estimated decrease in the population for the year, of 8,035 or .29 of one per cent. This small decrease may be ascribed to the disturbed conditions of the country, owing to the war, which has had its effect on Vital Statistics as well as on everything else. It will be noted that there is a decrease in the rates of births, marriages and deaths.

BIRTHS.

The following table shows the number of birth registrations for 1917 and allows of a comparison between this and of the preceding year:—

	1917	Ratio	1916	Ratio
Entire Province	62,666	22.6	65,264	23.5
Cities	26,029	25.2	26,938	26.4
Towns.....	4,866	28.8	4,687	29.7
Rural municipalities	31,771	20.2	33,639	21.0

The natural increase, i.e., of births over deaths was 29,382, which was an increase of 9,698 more than the natural increase in the preceding year.

The number of births decreased by 2,598, which was a decrease of 830 more than the decrease between 1915 and 1916.

The relation of male births to female births is shown in the following table:—

	Male	Female		M	to	F
Entire Province	32,382	30,284	or	106	to	100
Cities	13,459	12,570	"	107	"	100
Towns.....	2,523	2,343	"	107	"	100
Rural municipalities.....	16,406	15,365	"	106	"	100

ILLEGITIMATE BIRTHS.

The number of illegitimate births registered was 1,224, being 141 less than for the preceding year. This gives a rate of 19.5 per 1,000 births, which is 1.4 less than for the preceding year.

The rate is shown as follows:—

	19.5	per	1,000	living	births
Entire Province	32.9	"	1,000	"	"
Cities	14.4	"	1,000	"	"
Towns	9.3	"	1,000	"	"
Rural municipalities.....					

The ratio of illegitimacy to total births for the last five years has been as follows: 1913, 26.6; 1914, 22.1; 1915, 21.9; 1916, 20.9; 1917, 19.5.

MULTIPLE BIRTHS.

The number of pairs of twins registered in 1917 was 694, comprising 745 boys and 643 girls. There were 9 cases of triplets, comprising 19 boys and 8 girls.

MARRIAGES.

The number of marriages registered in 1917 was 21,499, being at the ratio of 7.7 per 1,000 of the population, or 15.4 persons married per 1,000 of population. This was a decrease of 1,902 marriages and a decrease of .7 of the rate.

The distribution of the marriages is as follows: In the cities, 11,092 or 51.62 per cent. of the total; in the towns, 1,822 or 8.98 per cent., and in the rural municipalities 8,585 or 39.5 per cent. The rates were as follows: Cities, 10.7; towns, 10.8, rural municipalities, 5.4 per 1,000 of population, and for the whole province 7.7.

MARRIAGES BY AGES.

Ages.	Total.	Bride-grooms.	% by age groups.	Brides.	% by age groups.
15-19	4,845	560	2.60	4,285	19.94
20-24	16,138	7,250	33.75	8,888	41.82
25-29	11,352	6,803	31.65	4,549	21.67
30-34	4,868	3,123	14.51	1,745	8.12
35-39	2,525	1,632	7.60	893	3.95
40-44	1,265	786	3.55	479	1.99
45-49	791	506	2.35	285	1.32
50-54	482	311	1.44	171	.79
55-59	304	207	.96	97	.45
60-64	208	148	.68	60	.27
65-69	144	108	.51	36	.16
70 and over	73	63	.29	10	.04
Not stated	3	2	.09	1	
Mean age	26.8 years.	28.7 years.		25.0 years.	

MARRIAGES BY DENOMINATIONS.

Denomination.	Total.	Bride-grooms.	Brides.	Number and % who inter-married.	Number and % who contracted mixed marriages.
Anglican	8,573	4,216	4,357	5,294=61.75%	3,279=59.25%
Presbyterian	8,921	4,548	4,373	5,378=60.28	3,543=39.72
Methodist	11,189	5,625	5,564	7,440=66.49	3,749=33.51
Roman Catholic	8,267	4,111	4,156	7,180=86.75	1,087=13.25
Baptist	2,477	1,192	1,285	1,254=50.62	1,223=49.38
Congregationalist	246	134	112	78=31.70	168=68.30
Lutheran	1,084	535	549	782=72.14	302=27.86
Evangelical Association	188	92	96	122=64.89	66=35.11
Hebrew	679	344	335	660=97.20	19= 2.80
Salvation Army	133	61	72	94=71.43	39=28.57
Others	1,220	629	591	898=73.60	322=26.40
Given	21	12	9	16=76.19	5=23.81

The number of bachelors who were married numbered 20,024 or 93.15 per cent. of total men who married; widowers, 1,452 or 6.75 per cent., and divorced men 23 or .1 per cent. The number of spinsters who were married numbered 20,551, or 95.55 per cent. of total women who married; widows, 932, or 4.33 per cent., and divorced women 16 or .07 per cent.

The following table shows the conjugal relations and how intermarriage took place:—

CONJUGAL RELATIONS

	Number of Marriages between									Total Marriages
	Bachelors and			Widowers and			Divorced Men and			
	Spinsters	Widows	Divorced Women	Spinsters	Widows	Divorced Women	Spinsters	Widows	Divorced Women	
Province	19,773	247	4	763	682	7	15	3	5	21,499
Cities	10,135	150	1	430	354	5	12	2	3	11,092
Towns	1,689	24	1	49	56	2	1	1,822
Rural	7,949	73	2	284	272	2	1	2	8,585

Marriages by license, 18,479 or 85.94 per cent.; by banns, 3,020 or 14.06 per cent.

DEATHS.

The following table shows the number of deaths registered during the year and allows of a comparison with the registrations of the preceding year:—

	1917	Ratio	1916	Ratio
Entire Province	33,284	12.0	35,580	12.8
Cities	13,535	13.1	14,287	14.0
Towns	2,493	14.7	2,609	16.5
Rural municipalities	17,256	10.9	18,684	11.7

It will be noted that the number of deaths has decreased by 2,296 or 6.89 per cent. The ratio has decreased by 0.8 per 1,000 of population.

The following table shows the rates per 100,000 of population in each year for a decade:—

[illegible]

Diseases of the arteries became one of the ten causes in 1909 and has continued. Broncho-pneumonia did not come into this class until 1913. Paralysis has held a place with the exception of the year 1910. Diphtheria showed for one year only, 1908. Diseases of the stomach, which cause of death is not very definite, appears in 1908 and 1910. Typhoid fever held a place for five years, and has ceased to come into the ten highest causes since 1912. It will be seen that the first ten causes of death named in the list have steadily held a place for five consecutive years.

TUBERCULOSIS.

The number of those deceased for the year was 2,460, which was a rate of 88 per 100,000 of population, being a decrease of 4, which is encouraging, as the rate of 1916 was an increase of 3 over that of 1915, which again was an increase of 4 over that of 1914.

The following is an analysis of rates in city, town and rural municipalities:—

	Deaths	% of deaths from tuberculosis	Ratio per 100 M of population
Entire Province	2,460	100	88.9
Cities	893	36.3	81.9
Towns.....	156	6.3	92.5
Rural municipalities	1,411	57.4	89.9

DEATHS IN ONTARIO FROM TUBERCULOSIS BY AGES, 1908-1917.

1917	2,460	88	51	43	26	19	11	45	70	196	664	490	351	240	144	72	18	20	33,284	

INFANT MORTALITY.

The number of infants who died before completing the twelfth month of life is 5,777. This was a decrease of 1,223 in the number as compared with 1916. The rate of infant mortality for the Province in that year was 107.2 and for the current year 92.1, being a decrease of 15.1 per 1,000 living births.

While there is considerable diminution in numbers in some causes of death, there is an increase in others. The number of deaths from diarrhoea and enteritis was 566, which was a decrease of 460. This is the smallest number of deaths from this disease ever experienced in the Province. The number of deaths from respiratory causes has also decreased. Last year the number of deaths from diseases of the respiratory system was 1,038, while for 1917 the number is 160 less, being 878. This, however, is considerably in excess of the number from respiratory causes in any of the first seven years of the decade ending with 1917. Although there is a diminution in the deaths from acute bronchitis, broncho-pneumonia and pneumonia, nevertheless there are other years in the decade which show a smaller number of deaths from these diseases.

Appended is a table giving the number of deaths and the rate of death per 1,000 living births for the decade for the province, cities, towns, and rural municipalities, excluding cities and towns:—

INFANT MORTALITY

Deaths of infants under 1, and ratio per 1,000 living births, 1908-1917

	Province		Cities		Towns		Rural	
	Deaths under 1	Ratio per 1,000 living births	Deaths under 1	Ratio per 1,000 living births	Deaths under 1	Ratio per 1,000 living births	Deaths under 1	Ratio per 1,000 living births

III.—DISEASES OF THE CIRCULATORY SYSTEM.

Group Total

78. Acute endocarditis
79. Organic diseases of the heart
80. Angina pectoris
81. Diseases of the arteries, atheroma, aneurysm
etc.
82. Embolism and thrombosis
84. Diseases of the lymphatic system (lymphangitis
etc.)

IV.—DISEASES OF THE RESPIRATORY SYSTEM.

Group Total

39. Acute bronchitis
40. Chronic bronchitis
41. Broncho-pneumonia
42. Pneumonia
44. Pulmonary congestion, pulmonary apoplexy
46. Asthma

V.—DISEASES OF THE DIGESTIVE SYSTEM.

Total drop

102.	Ulcer of the stomach
103.	Diarrhea and enteritis (under 2 years)
105.	Diarrhea and enteritis (2 years and over)
108.	Appendicitis and typhlitis
109.	Hernia, intestinal obstructions
110.	Diseases of the intestines
111.	Cirrhosis of the liver
113.	Biliary calculi

VI.—NON-VENEREAL DISEASES OF THE GENITO-URINARY SYSTEM AND ADNEXA.

Group Total

119. Acute nephritis
120. Bright's disease
126. Diseases of the prostate

VII.—THE PURPERAL STATE.

Gross Total

137. Puerperal septicæmia
 XIX.—DISEASES OF THE BONES AND OF THE ORGANS
 OF LOCOMOTION.

Group Total

146. Diseases of the bones (tuberculosis excepted).

DISEASES AND CAUSES OF DEATH.

Number of Column.

I.—GENERAL DISEASES.

Group Total

9. Diphtheria and croup

Total deaths from tuberculosis

28. Tuberculosis of the lungs.

29. Acute military tuberculosis

39. Cancer and other malignant tumors of the buccal cavity

40. Cancer and other malignant tumors of the stomach and liver

44. Cancer and other malignant tumors of the skin

45. Cancer and other malignant tumors of other organs or of organs not specified

48. Chronic rheumatism and gout

II.—DISEASES OF THE NERVOUS SYSTEM AND OF THE ORGANS OF SPECIAL SENSE.

Group Total

60. Encephalitis

61. Meningitis

64. Cerebral hemorrhage, apoplexy

66. Paralysis without specified cause

68. Other forms of mental alienation

71. Convulsions of infants

III.—DISEASES OF THE CIRCULATORY SYSTEM.

Group Total

77. Pericarditis

79. Organic diseases of the heart

81. Diseases of the arteries, aneurysm, etc.

61. Meningitis
63. Other diseases of the spinal cord
64. Cerebral hæmorrhage, apoplexy ..

REPORT

RELATING TO THE REGISTRATION OF

Births, Marriages and Deaths

IN THE

PROVINCE OF ONTARIO

FOR THE

Year Ending 31st December,

1918

(Being the 49th Annual Report)

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO :

Printed and Published by A. T. WILGRESS, Printer to the King's Most Excellent Majesty

1919

Printed by
THE RYERSON PRESS

To His Honour the Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I herewith beg to present for your consideration the Forty-Ninth Annual Report of the Registrar-General, relating to the Registration of Births, Marriages and Deaths in the Province of Ontario, during the year 1918.

Respectfully submitted,

WM. DAVID McPHERSON,

Registrar-General of Ontario.

SIR:—

I have the honour to submit for your approval the Forty-Ninth Annual Report made in conformity with and under the provisions of the Act respecting the Registration of Births, Marriages and Deaths in the Province of Ontario, for the year ending December 31st, 1918.

I have the honour to be, Sir,

Your obedient servant,

A handwritten signature in dark ink, reading "John M. Bullough". The signature is written in a cursive style with a large, sweeping initial "J" and a long horizontal stroke extending to the right.

Deputy Registrar-General.

To HON. WM. DAVID MCPHERSON,

Registrar-General of Ontario.

REPORT UPON

Births, Marriages and Deaths

FOR THE YEAR 1918

The Forty-ninth Annual Report of Vital Statistics for the Province of Ontario is herewith presented.

POPULATION.

The estimated population of Ontario for the year 1918 is 2,798,970, divided as follows:—Cities, 1,080,430 or 38.7 per cent.; towns, 149,020 or 5.3 per cent., and rural municipalities, 1,569,520 or 56 per cent. This is an estimated increase in the population for the year, of 29,120 or 1.04 per cent. It will be noted that the percentage of the population in the towns is smaller this year than in the previous year. The number of births, marriages and deaths in towns, as well as the ratios per one thousand of population, are smaller than in the previous year. This is due to the fact that the list of towns is smaller, for the reason that several of the larger ones have become cities, and two, at least, have been eliminated because the population did not reach 5,000. Welland, for example, has become a city, and Steelton has been absorbed by Sault Ste. Marie.

BIRTHS.

The following table shows the number of birth registrations for 1917 and 1918 and allows of a comparison between the two:

	1918	Ratio	1917	Ratio
Entire Province	64,729	26.6	62,666	22.6
Cities	26,903	24.9	26,029	25.2
Towns	4,367	29.3	4,866	28.8
Rural Municipalities	33,459	21.3	31,771	20.2

The natural increase, i.e., of births over deaths, was 21,691, which was 7,691 less than the natural increase in the preceding year.

The number of births increased by 2,063, which is 3.3 per cent. of an increase over the number registered during the year 1917. There was an increase in the ratio of births per 1,000 of population, of 4.0 per cent.; the ratio for the year being 26.6. This is an increase of 2.7 per 1,000 of population over the mean rate for the decade.

The relation of male births to female births is shown in the following table:—

	Male	Female	M	to	F
Entire Province	33,486	31,243	107	to	100
Cities	13,883	13,020	106	to	100
Towns	2,222	2,145	103	to	100
Rural Municipalities	17,381	16,078	108	to	100

Of births registered 33,486 were males and 31,243 were females; being an increase of 1,104 males and 959 females over the number of the previous year.

ILLEGITIMATE BIRTHS.

The number of illegitimate births registered was 1,363, being 139 more than during the preceding year. This gives a rate of 18.2 per 1,000 births registered, which is 1.3 less than for the preceding year.

The rate is shown as follows:—

Entire Province	1,363, being 18.2 per 1,000 living births
Cities	976 " 36.3 " 1,000 " "
Towns	58 " 13.3 " 1,000 " "
Rural Municipalities	329 " 9.8 " 1,000 " "

The ratio of illegitimacy to total births for the last five years has been as follows: 1914, 22.1; 1915, 21.9; 1916, 20.9; 1917, 19.5; 1918, 18.2.

MULTIPLE BIRTHS.

The number of pairs of twins registered in 1918 was 676, comprising 658 boys and 694 girls. There were 9 cases of triplets, comprising 13 boys and 14 girls.

MARRIAGES.

The number of marriages registered in 1918 was 19,525, being at the rate of 6.9 marriages, or 13.8 persons married, per 1,000 of population. This was a decrease of 1,974 marriages and a decrease of .8 of the rate.

The distribution of the marriages is as follows: In the cities, 10,483 or 53.7 per cent. of the total; in the towns, 1,363 or 6.9 per cent., and in the rural municipalities, 7,679 or 39.3 per cent. The rates were as follows: Cities, 9.7; towns, 8.8; rural municipalities, 4.8 per 1,000 of population, and for the whole province 6.9, which is 2.3 below the mean rate for the ten preceding years.

CONJUGAL RELATIONS.

The following table shows the conjugal relations and how intermarriage took place:—

	Number of Marriages between									Total Marriages
	Bachelors and			Widowers and			Divorced Men and			
	Spinsters	Widows	Divorced Women	Spinsters	Widows	Divorced Women	Spinsters	Widows	Divorced Women	
Province	17,622	334	15	802	721	4	18	5	4	19,525
Cities	9,329	231	12	464	423	3	15	2	4	10,483
Towns	1,251	22	1	40	46	1	2	1,363
Rural	7,042	81	2	298	252	1	2	1	7,679

Marriages by license, 17,344 or 88.84 per cent.; by banns, 2,181 or 11.16 per cent.

DEATHS.

The following table shows the number of deaths registered during the year and allows of a comparison with the registrations of the preceding year:—

	1918	Ratio	1917	Ratio
Entire Province	43,038	15.3	33,284	12.0
Cities	18,771	17.3	13,535	13.1
Towns	3,241	21.7	2,493	14.7
Rural Municipalities	21,026	13.4	17,256	10.9

It will be noted that there is a large increase in the number of deaths; the increase being 9,754 or 12.9 per cent. over the number of deaths for 1917. The ratio of deaths per 1,000 of the estimated population is the *highest in the history of the Province* and is due to the fact that Ontario did not escape the ravages of the dreadful epidemic of Influenza which struck the world.

The cities collectively gave a rate per 1,000 of estimated population, of 17.3, which is 4.2 of an increase over that of the preceding year, while the towns collectively gave a rate of 21.7, being an increase of 7.0 over the preceding year, and this notwithstanding the fact already pointed out in another paragraph, that the towns are fewer in number than they were in 1917.

INFLUENZA.

The number of deaths registered from influenza and Spanish influenza are compiled under "Influenza"; being cause No. 10 in the Bertillon System. The total number of deaths from this disease was 7,337; being at the rate of 2.61 per 1,000 of estimated population. It is impossible to make a comparison with any previous year in this particular disease, for the simple reason that nothing of the kind ever happened before in the history of the Province. This number, 7,337, does not actually include the total deaths from this plague, as it is impossible to speak of the deaths from influenza without taking into consideration the number of deaths from pneumonia.

The number of deaths from pneumonia was 4,660. The mean deaths from pneumonia for ten years, excluding the year 1918, number 2,015, so that it would be unfair to make a comparison between the number for 1918 and any previous year. This is the reason of the statement to the effect that deaths from influenza cannot, in themselves, be considered without the deaths from pneumonia. Let it be assumed, then, that half of the total deaths from pneumonia (4,660) are due to influenza, and let this half (2,330) be added to the total deaths from influenza. This makes the influenza deaths total 9,667, which is a ratio of 3.45 per 1,000 of estimated population and is 22.4 per cent. of all deaths registered.

Taking influenza by itself (7,337 deaths), this is 17.0 per cent. of the total deaths registered. Of these deaths, 47.1 per cent. occurred in the cities; 10.5 per cent. in the towns, and 42.4 per cent. in the rural municipalities. The cities suffered 47.1 per cent. of the deaths from influenza, whereas they contain collectively but 38.7 per cent. of the total population. While the rural municipalities contain 56 per cent. of the population, they suffered but 42.4 per cent. of the deaths from influenza. This is but a natural result of herding together, as is the situation in every city. The last three months of the year had the greatest mortality. The following table contains the compilation of the deaths from influenza and pneumonia during that period:—

DEATHS FROM INFLUENZA AND PNEUMONIA, OCTOBER 1ST TO DECEMBER 31ST, 1918.

—	Influenza and Pneumonia	Influenza	Pneumonia	Total
Entire Province	5,999	1,824	2,500	10,323
Cities	2,903	612	1,274	4,789
Towns	628	181	198	1,007
Rural Municipalities	2,468	1,031	1,028	4,527

DEATHS FROM PNEUMONIA.

As already stated, it is not fair to make a comparison between the deaths from this disease during the previous year and those which occurred during 1918, as the latter do not represent what might be considered a more or less normal death rate. It is unfortunate that we have to consider a high "normal death rate," but it cannot be denied that pneumonia has steadily increased during the last decade. If percentage is desired, there were 1,897 more deaths than in the previous year, and a rate per 100,000 of population, of 166.5. The highest previous rate was 105.6, in 1916, although that year did not contain the highest number of deaths.

The following table shows the deaths from pneumonia for the decade, together with the rate per 100,000 of population:—

	Number	Rate
1909	1,504	67.3
1910	1,558	66.5
1911	1,568	66.0
1912	1,629	63.0
1913	2,076	77.4
1914	2,009	73.0
1915	2,352	84.9
1916	2,912	105.6
1917	2,763	99.7
1918	4,660	166.5

CANCER.

The number of deaths from cancer recorded during the year was 2,103, which gives a rate of 75 deaths per 100,000 of population. This is 93 fewer deaths than in the previous year, and a decrease in the rate of 4.3. The disease still continues undiminished and is carrying off altogether too many residents of our Province. The question of cancer is, however, receiving the attention of medical men and laboratory experts, and it is hoped that some method will be evolved to check the ravages of this distressing disease.

TUBERCULOSIS.

The number of deaths from tuberculosis was 2,519, which was a rate of 90 per 100,000 of population, being an increase of 2 over that of the preceding year.

The following is an analysis of rates in city, town and rural municipalities:—

	Deaths	Per cent. of deaths from tuberculosis	Ratio per 100 M of population
Entire Province	2,519	100	90
Cities	934	37.8	86
Towns	174	5.8	116
Rural Municipalities	1,451	56.4	92

INFANT MORTALITY.

The number of infants who died before completing the twelfth month of life was 6,402, which is a rate of 99 per 1,000 living births. This is an increase of 7 per 1,000 births over that of the previous year, which rate was 92 and was the lowest ever known in the Province. It is unfortunate that the rate has again increased, but some small measure of satisfaction may be taken from the fact that it is still considerably below that of any other year, with the exception of 1917. This rate means that out of every ten children born alive, one is doomed to a shroud before completing the twelfth month of life. The Various Public Health Nurses and Associations for Child Welfare are leaving no stone unturned to give the baby a chance to live, but more intensive effort is needed in what may be regarded as one of our most important public health activities.

Appended is a table giving the number of deaths and the rate of death per 1,000 living births for the decade for the Province, cities, towns and rural municipalities, excluding cities and towns:—

Deaths of infants under 1, and ratio per 1,000 living births, 1909-1918

	Province		Cities		Towns		Rural	
	Deaths under 1	Ratio per 1,000 living births	Deaths under 1	Ratio per 1,000 living births	Deaths under 1	Ratio per 1,000 living births	Deaths under 1	Ratio per 1,000 living births
1909..	6,932	129.7	2,830	170.3	426	144.7	3,686	108.7
1910..	6,649	117.1	3,008	162.8	389	135.2	3,252	94.5
1911..	6,421	114.4	2,905	144.9	522	130.2	2,994	94.7
1912..	6,494	110.2	3,194	139.3	520	132.8	2,780	86.8
1913..	7,597	117.7	3,776	140.3	605	148.3	3,216	95.7
1914..	6,835	103.2	3,249	116.0	599	129.8	2,887	85.9
1915..	6,338	102.0	3,086	113.1	425	110.0	3,327	92.7
1916..	7,000	107.2	3,286	122.0	609	129.9	3,105	92.3
1917..	5,777	92.1	2,652	101.9	478	98.2	2,647	83.3
1918..	6,402	99.0	3,086	114.7	504	115.4	2,812	84.0

GENERAL REMARKS.

The year 1918 will go down in history as Peace Year. The Great War came to an end on the eleventh day of November, and the people of the Province of Ontario rejoice and give thanks, as do all other peoples of the world.

During the early part of the year the Military Service Act became operative in Canada, which made it necessary for practically all men from sixteen or seventeen years of age and upwards to carry certificates of birth and, in some cases, certificates of marriage. Never before in the history of the Department has the demand been so great for documentary evidence relating to births and marriages on the part of the public. So great, indeed, was the demand that it became necessary to increase the staff by about three hundred per cent, and work twenty-four hours per day seven days per week, in eight-hour shifts. It is estimated that there were some 60,000 certificates issued during the year, and some 89,500 searches made, for which fees were received. During the same period some 7,000 searches were made and certificates issued free of charge to soldiers or their families. Such a huge amount of searching revealed the fact that in the earlier days registration of vital statistics was not nearly so well observed as it is at present. A large number of births and marriages was found not to be registered, and, in all cases where it was possible, the Department gave the privilege of registering, and in this way some 5,000 births were registered. A larger number would have been registered had the Department not been obliged to refuse many the privilege because there was no person available who was qualified to bring sufficient evidence to make the registration.

During the year the Dominion Bureau of Statistics at Ottawa expressed a desire to compile vital statistics for the whole of the Dominion. With this end in view an invitation was issued to all the officials of the various Provinces charged with the administration of the Acts relating to the registration of births, marriages and deaths, to attend a Conference at Ottawa. This Conference had two sittings. One of the objects of the meetings was to evolve from the various Vital Statistics Acts in operation throughout the Dominion, a new Act which would be acceptable and workable in each of the Provinces. This new Act has been printed and appears in the Statutes of Ontario, 1919, as Chapter 23; copies of which may be had upon application to the Department. Another object of the Conference was the standardization of forms, making the information required uniform in each Province. This, it is expected, will enable a comprehensive comparison of Canadian Vital Statistics.

There have been no radical changes in the new Vital Statistics Act. The responsibility of registration still rests with the parents, and notice of a birth by the physician must be given within forty-eight hours instead of "forthwith," the latter word being indefinite. In regard to the issuing of a medical certificate of death, the same must be done within twenty-four hours instead of "forthwith." It is expected that the rigid enforcement of the new Act will produce more perfect registration.

TABLE No. 1.

Showing the number of Births, Marriages and Deaths, and the ratio per 1,000 of population in each County (excluding Cities and Towns) 1918.

Counties.	Estimated Population.	Births, Excluding Still- Births.	Ratio per 1,000.	Marriages.	Ratio per 1,000.	Deaths, Excluding Still- Births.	Ratio per 1,000.
